Compact Coaxial Compression Tool K-CX2

The compact compression tool for everyday RG6 and RG59 F-connector work — short body, fixed stroke, nothing to adjust: load the connector and squeeze.

A compact compression tool for F-type compression connectors on RG6 and RG59 coaxial cable. Its short body and fixed stroke make it the everyday in-home tool: load the connector in the carriage and squeeze once.

Key Features

- For F-type compression connectors on RG6 and RG59 coax
- Compact short body — works in wall boxes and crowded cabinets where a full-size tool will not swing
- Fixed stroke: no plunger to set, the same press every time
- Open channel with connector carriage — easy loading, connector visible as it seats
- Steel wire bail locks the handles shut for the pouch
- Chrome-plated steel body with red grips and fittings

K-CX2 compact coaxial compression tool for RG6 RG59 F connectors

Head and storage lock

In Use

Seat the prepared connector in the carriage, close the handles fully and release. The steel bail flips over the handles to keep the tool shut in the pouch.

Private Label & OEM

Supplied in neutral, unbranded stock as standard. Private labeling is made to your requirements — labels with your logo, part numbers and barcodes on the inner boxes and outer cartons, so the goods arrive ready for your warehouse. Custom barcode & contract labeling is applied to every inner box and outer carton to your receiving specification.
