Ratchet Modular Crimping Tool K-RJ10

The ratchet version of the modular crimper: 8P, 6P DEC and 4P dies, built-in 6 mm and 12 mm strip gauges, and a locking handle that keeps it shut in the toolbox.

A ratchet modular crimping tool with three dies - 8P for RJ45, 6P DEC and 4P - plus built-in 6 mm and 12 mm strip gauges. The ratchet completes the full crimp cycle before it releases, and a lock bar keeps the handles closed in storage.

K-RJ10 ratchet modular crimping tool for RJ45 plugs

Key Features

- Ratchet mechanism — the jaws release only when the crimp cycle completes, so plugs get full, even pressure
- Three dies: 8P (RJ45), 6P DEC and 4P in one head
- Built-in strip-length gauges: 6 mm and 12 mm stops marked on the body
- Crimps, strips and cuts in one tool
- Safety lock bar keeps the handles closed in the bag and releases with a thumb knob
- Laminated steel head with black finish and bright orange grips

Specifications

Plug sizes	8P8C (RJ45), 6P DEC, 4P

Crimping a modular plug

In Use

Push the cable to the 6 mm or 12 mm strip stop and strip, trim with the cutter, seat the plug in its die and squeeze: the ratchet clicks open only when the crimp is complete.

Private Label & OEM

Supplied in neutral, unbranded stock as standard. Private labeling is made to your requirements — labels with your logo, part numbers and barcodes on the inner boxes and outer cartons, so the goods arrive ready for your warehouse. Custom barcode & contract labeling is applied to every inner box and outer carton to your receiving specification.
